

Mutliécrans

Ajouter 2 écrans :

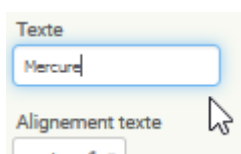

- Terre
- Mercure

Sur *Screen1*, ajouter 2 boutons Terre et Mercure (renommer le bouton en *BoutonTerre* et *BoutonMercure*).

Et mettre le texte à Terre et Mercure :

The screenshot displays the DokuWiki Multiecrans interface, which is used for creating mobile-responsive web pages. It is divided into three main sections:

- Interface:** This section shows a preview of the mobile screen. It includes a header bar with the title "Screen1" and a status bar at the top showing signal strength, battery, and time (9:48). Below the header, there are two buttons labeled "Terre" and "Mercure". The interface also has a checkbox for "Afficher les composants cachés dans l'interface" and a checkbox for "Cochez pour voir un aperçu sur un appareil de taille tablette".
- Composants:** This section lists the components used in the interface. It shows a tree structure with "Screen1" at the top, followed by "BoutonTerre" and "BoutonMercure". There are buttons for "Renommer" (Rename) and "Supprimer" (Delete) at the bottom of this section.
- Propriétés:** This section contains various configuration options for the selected component. It includes a "Couleur de fond" (Background color) dropdown set to "Par défaut" (Default), an "Activé" (Activated) checkbox checked, a "Gras" (Bold) checkbox unchecked, an "Italique" (Italic) checkbox unchecked, a "Taille de police" (Font size) input field set to "14.0", a "Type de police" (Font type) dropdown set to "Par défaut" (Default), a "Hauteur" (Height) input field set to "Automatique..." (Automatic...), a "Largeur" (Width) input field set to "Automatique..." (Automatic...), an "Image" dropdown set to "Aucun..." (None...), a "Forme" (Shape) dropdown set to "par défaut" (default), a "Montrer réaction" (Show reaction) checkbox checked, a "Texte" (Text) input field set to "Terre", and a "Média" (Media) section with a "Charger fichier ..." (Upload file ...) button.

Dans *Screen1*, mettre le script suivant :
